

Latest Thesis and Research Topics in Cloud Computing

1. To isolate the virtual side channel attack in cloud computing
2. Enhancement in homomorphic encryption for key management and key sharing
3. To overcome load balancing problem using weight based scheme in cloud computing
4. To apply watermarking technique in cloud computing to enhance cloud data security
5. To propose improvement green cloud computing to reduce fault in the network
6. To apply steganography technique in cloud computing to enhance cloud data security
7. To detect and isolate Zombie attack in cloud computing
